

BLUE MOUNTAIN DISTRIBUTION SYSTEM

** 1971 ASSESSMENT **

\$ 375.00

FORWARD:

As is stated in the minutes of the meeting held with the water users of Blue Mt. Distribution System and the State Engineer March 24, 1971, the 1971 Assessment is to be based on a percentage basis, due to lack of water measuring devices.

Therefore, as is stated on Page III, the breakdown is as follows:

Verdure:	10%	\$ 37.50
Pioneer	10%	37.50
Blue Mt. Irr.	20%	75.00
Sprg Creek	60%	<u>225.00</u>

TOTAL \$ 375.00

CALCULATION OF ASSESSMENT: (Spring Creek Users)

As was decided verbally by phone between R. R. Pexton and Comm. Donald Rogers, 9:30 AM June 28, 1971, the Spring Creek Users (6) were also divided up on a percentage basis, their total assessment in the amount of \$ \$ 225.00.

It was stated by the Commissioner that Acc't No's 4-C & 4-D should be assessed 50% of the \$ 225.00, which equals \$ 112.50, therefore the amount of \$ 56.25 is assessed to each of them.

The commissioner also stated the four remaining users should be assessed 1/4 each of the remaining \$ 112.50, therefore this equals \$ 28.12 or \$ 28.13 to each user, to equal \$ 112.50.

PROOF:

Verdure:	\$ 37.50
Pioneer	37.50
Blue Mt. Irr.	75.00
Sprng Creek	<u>225.00</u>

TOTAL ASSM'T \$ 375.00

Prepared by:

Richard R. Pexton
June 28, 1971

1972 Assessment same as 1971 - \$ 375.00
